Open 24/7: www.dragparts.com

Mission Statement

At Good Vibrations Motorsports we strive to provide high quality performance products at discount prices without sacrificing customer service.

Jim Maher

Why Buy From Good Vibrations?

* Prices

Never pay Retail. All products are generously discounted.

* Quality

We sell premium quality products only.

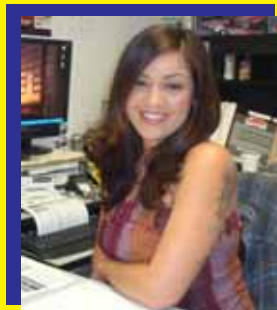

* Technical Support

No Question is too tough.

Deal directly with enthusiasts that speak your language.

* Promptness

Most orders are shipped the same day. Calls are returned ASAP.

Jessica Lascano

We Ship International !!

Blower Injectors

All blower injectors are complete with: Barrel Valve, Fuel Lines, Nozzles & Bodies, Check Valve, Distribution Block & Bypass Pills.

Injectors are set up per customer application FREE at NO additional charge.

Blown	E-1002 Bugcatcher	\$ 1098
Alky	E-1004 Birdcatcher	\$ 1248

Blown	E-1001 Bugcatcher	\$ 1148
Gas	E-1003 Birdcatcher	\$ 1328

Injector Hat - Partial

Includes:

Polished Hat, Shaft, Stops, Double Arms and Butterflies.

E-4005 Bug **\$ 499** E-4006 Bird **\$ 669**

3-Rib Nostalgia Bugcatcher

It's Back! This injector is nearly identical to the original Bugcatcher of days gone by. Has the three ribs on the top rear. Ideal for that nostalgia look.

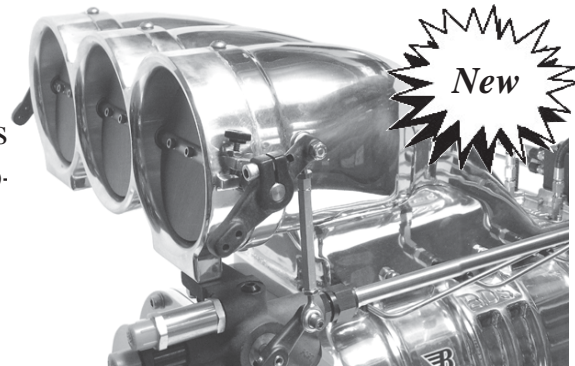

E-4005F Finned Bugcatcher **\$ 559**

Big & Ugly Injector

Your Choice: TALL or SHORT

This new tall aluminum injector hat is Enderle's replica of the carbon fiber hats. It has a highly luster polished finish and billet front. Available complete or partial w/ Shaft, Butterflies, Stops & Arms.

Weight ... 16lbs
Tall ... 10.7"
Short 8.3"

4 Butterfly Sizes: 3 9/16, 4 3/8, 5 and 5 9/16

E-BAU-1 5 9/16 Injector. Complete **\$ 1978**

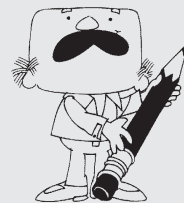

E-BAU-1-SB 5 9/16 Injector. Partial **\$ 1298**

E-BAU-3 4 3/8 Injector. Complete **\$ 1748**

E-BAU-3-SB 4 3/8 Injector. Partial **\$ 1098**

Barrel Valve Leakdown

- * Block off all injector lines & returns except for hat nozzles
- * Connect dual gauge tester to outlet of compressor
- * Set Air Compressor to read 100psi on 1st gauge
- * Connect tester to inlet of barrel valve
- * Read % on 2nd gauge
- * Adjust Linkage Turnbuckle for % (Lengthen to Richen, Shorten to Lean)

Leakdown Tester

Dual Gauge w/ 14mm Cylinder Hose Professional Grade

TS-14MMLDT

\$ 105

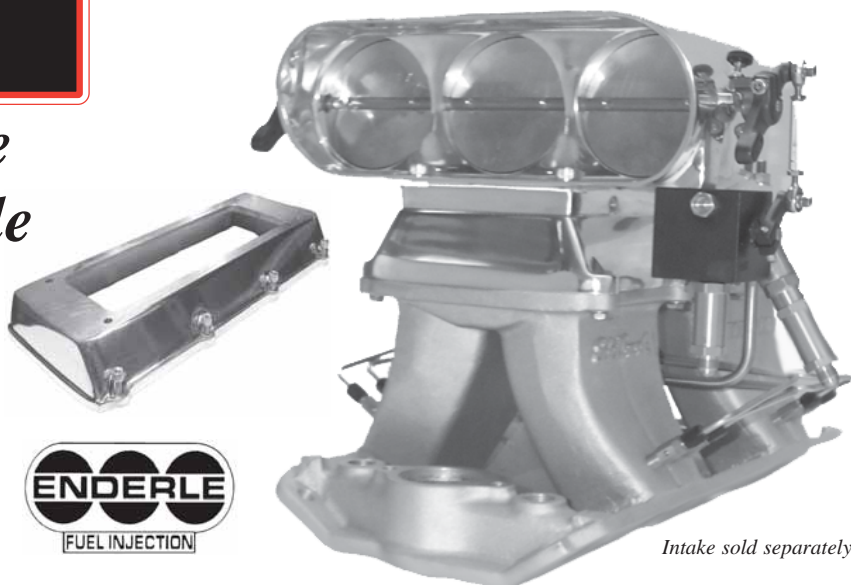

GV-08026 Injector Hose AN6 **\$19**

Why Enderle Mechanical Fuel Injection ??

- * *Consistent & Responsive*
- * *Dependable & Affordable*
- * *FREE Tech Support*
- * *Looks Cool !*

- E-4024A K-Style Barrel Valve Assy **\$ 259**

Pills, Nozzle Jets, Holders

Enderle **Bypass Pills** are the Screw-In style and are designed to divert fuel away from the engine. The larger the pill, the leaner the mixture.

Sizes:
.020 to .209
E-7009 Bypass Pill **\$2.95**

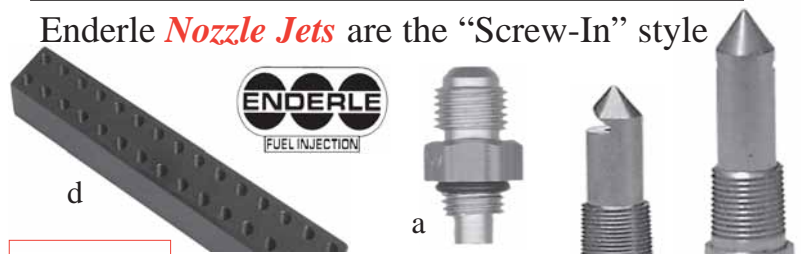

Hi-Speed kit .050-.095 **\$28.99**

New
Install pills without damaging. Stores 8 pills.
E-7009.SD Driver **\$35.95**

Alum storage holder is a convenient place to store up to 40 bypass pills.
E-7010 Pill Holder **\$19.99**

Anodized aluminum storage holder is a convenient and safe place to store up to 60 jets.

- Sizes:** .016 to .99
- a. E-7007 Brass Nozzle Jet **\$ 4.35**
 - a. E-7007A Flowed Nozzle Jet **\$ 6.85**
 - b. E-7121A Port Nozzle Body **\$ 8.99**
 - b. E-7130A Ball Check Port Body **\$ 15.99**
 - c. E-7110A Top Nozzle Body **\$ 8.99**
 - d. E-7011 Jet Storage Holder **\$ 19.99**

Hydrometer Kits

Hydrometer kits come complete with hydrometer, glass beaker and protective wooden carrying case.

Available: Gas, Alcohol and Nitro.

Nitro Sizes: 0-50% & 50-100%

- E-7012 Hydrometer Kit Gas/Alky .. **\$ 159**
- E-7013 Hydrometer Kit Nitro **\$ 159**
- E-7014 Hydrometer only **\$ 58**
- E-7015 Beaker only **\$ 36**

Injector Hat Spacer

Spacers 13.25" C-C
Choice: 2 or 3" tall
Includes Studs and Nuts.
Adapter allows one to bolt a smaller hat (13.25" bolt pattern) to a large blower (15.25").

Polished Alum

- E-BS2 2in Injector Spacer **\$ 87**
- E-BS3 3in Injector Spacer **\$ 90**
- LIT-IS Hat Adapter **\$139**

Injector Hat Filter Assembly

Keeps rocks and debris out of your engine & blower.

A Must for the Sand!

Kit includes:

- Outerware
- Stainless Steel Rods
- Billet aluminum housing
- SS Quick Disconnect Pins
- Reusable K&N filter element

Hi-Speed Assembly

Bleeds off fuel at higher rpm. Frees up top-end horsepower. Installs between pump and distribution block.

\$66

E-7019 HS Unblown E-7018 HS Blown

Distribution Blocks

Distribution Blocks feature a black billet alum housing and includes fittings. Also machined for use with a primer check valve.

- E-4027 Hat Dist Block w/ 8 fittings \$ 59
- E-4027A Hat Dist Block w/ 12 fittings \$ 69
- E-4027VW Port Dist Block w/ 4 fittings \$ 32
- E-4028 Port Dist Block w/ 8 fittings \$ 58

Fuel Log & Y-Blocks

Fuel Log routes three AN6 returns into one outlet. Mounts to the side of Shutoff Valve. Accepts three "Screw-In" bypass pills.

Billet Alum and HA. Two AN8 inlets, One AN12 outlet

- E-4131 Y-Block .. \$61
- GS-FuelLog .. \$95

Billet Alum Y-Blocks have Dual Inlets and a Single Outlet.
3 Sizes: 8-6, 10-8 or 12-10

\$59

Check Valves

Brass check valves feature a one-way, spring-loaded poppet design. PSI is varied by springs and shims.

- AN6 Check Valves \$ 35
- AN8 Check Valves \$ 48
- Primer Check Valve AN4 \$ 20
- AN6 Spring & Shim Kit \$ 19

On-Board Primer System

Prime mechanical fuel injection from inside the driver's cockpit. Includes 1/2 qt Stainless-Steel tank.

\$99

Kit Includes

- SS Fuel Cell 1/2 qt
- Primer Check Valve
- 5' Braided SS Hose
- Hose Fittings

* Electric Pump Required

Blower pulleys are machined from billet 6061 aluminum and are T-6 heat treated. Pulleys are 3.5" wide with a 2" register.

Hard anodizing is standard on the 8mmGT, 13.9 and 14mm pulleys. Good Vibrations offers one of the largest selection of blower pulleys.

V-Groove Pulleys

V-Groove Pulleys are machined from billet 6061-T6 alum. Has a 2" register and bolt directly to crank hub with 6 bolts. Can stacked together for PS, AC, Etc...

Adapter-style pulleys bolt directly to harmonic balancers and are available in single or double V-Grooves. Billet aluminum spacers allow one to easily align both top and lower blower pulleys.

Universal Seat Mounts

Bracket kit fits all JAZ seats. Pre-drilled for nine separate seat heights and angle adjustments.

JAZ-450-010-09 ... \$ 29.95

Sliding Seat Mount

Easy to operate single lever. Heavy cadmium plated steel prevents rusting. Can be used on all JAZ seats featuring a flat bottom.

JAZ-450-011-03 ... \$ 38.95

What makes JAZ Poly Seats and Fuel Cells unique?

JAZ polyethylene seats and fuel cells feature hollow, one piece seamless construction with molded-in colors that won't fade, peel or scratch off. These seats and cells each have excellent high and low temperature impact. They will not corrode or rust.

They can be frozen, hit with a hammer and will not break. The double-walled construction of the seats deliver a comfortable, impact absorbing ride. The crosslinking process provides maximum strength and minimum weight with sufficient elasticity to resist shock and vibration damage.

Each seat has molded-in threaded inserts which will withstand a pull-out force of 1600lbs each. Installation is fast and trouble-free.

Roll Bar Padding

SFI 45.1

Colors
Black

Hose Fitting Assembly

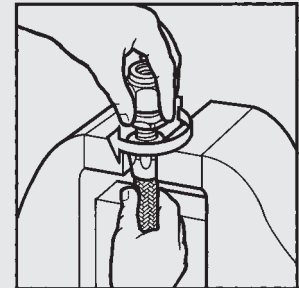

1. Wrap hose tightly with tape at cutting point. Using a fine tooth hacksaw, cable cutters or radiac wheel, cut the hose in the middle of the tape. Remove tape after cutting being careful not to fray the braid.

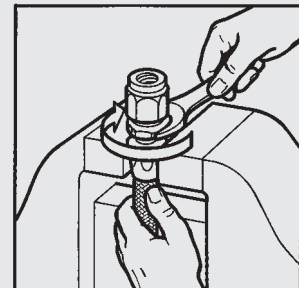

2. Slip hose into socket to the depth indicated by the hose insertion mark on the outside of the socket. This should be just short of the back of the threads. **VERY IMPORTANT** - Mark hose with tape or suitable marking device at rear of socket. This mark will later indicate to you if the hose has pushed out of the socket during assembly.

3. Using an anti-seize lubricant, liberally lubricate inside of hose and threads on the nipple. Holding nipple horizontally in a vise equipped with soft aluminum jaws, push socket end carefully with hose nipple with a turning motion and engage nipple threads into those of the socket. Continue tightening by hand as far as possible to make sure that the threads are properly mated and no cross threading has occurred.

4. Using an aluminum fitting wrench, finish tightening assembly. When properly assembled a small gap of .030" or less should exist between the socket and shoulder of nipple. **NOTE:** Check marks on hose in step 2 for any evidence of push out. Hose assembly must be cleaned and tested to twice the operating pressure.

No more Bloody Fingers!

Assemble Braided Stainless Steel hose without poking your fingers. Ideal for racers and performance enthusiasts who have experienced the painful challenge of installing the AN socket.

Copper Head Gaskets

Benefits of Using Copper...

Conductivity. Copper is the standard by which all other conductors are measured, therefore a copper gasket provides superior thermal conductivity, acting to stabilize head and block temperatures which makes tuning easier.

25% Coefficient of Elasticity. One of the properties of copper is that it stretches before a catastrophic failure, thereby providing an extra measure of safety in case of severe detonation.

Strength. Copper (in the form SCE use) has a tensile strength of approximately 32,000 psi, compare this to the 1200 to 1800 psi tensile of most facing materials used on conventional performance head gaskets.

**Premium Quality * Properly Annealed
Perfect Fit * Dead Soft Copper**

How to Set a Mag with a Buzz Box

1. Rotate crankshaft until desired amount of ignition timing is lined with timing pointer.
2. Find out where #1 cylinder is in the cap and make a mark on outside of generator case.
3. Find out where last cylinder segment in firing order is in cap and mark on outside of generator case.
4. Line up all intermediate oil pump drives and gear drive so as to place the rotor approximately 1/2 the way between #1 cyl segment and the last segment in the firing order when the ignition is firmly seated on the manifold or block surface.
5. At this time you should check the play between the intermediate shaft and the ignition or the block and the thrust face on the gear. Some play or clearance must be present. If not when you tighten your ignition down you might be jacking your oil pump gear though the bottom plate of your pump.
6. Snug up the bolt/nut on the retainer so you can move the ignition with a slight amount of resistance.
7. Hook up the buzzer to the orange & yellow primary wires and turn it on. The buzzer may be buzzing now or it may not—not to worry at this time.
8. Determine which way the rotor rotates and hold back against it with your thumb, applying a few ounces of pressure.
9. Turn the outside case of the ignition against the rotation until the buzzer just stops. You might have to do this 2-3 times to get the feel of it, but the mag will fire just as the buzzer stops (this is when the point opens).
10. Tighten up the ignition clamp bolt/nut.
11. To check if you're right there in the ball park ignition wise, reach up and grasp the rotor and turn it the way you did before. It should buzz when back pressure is applied to rotor and quit buzzing with reduction of pressure.

Legal Stuff... Telephone Orders

Order lines are open between 8am and 4:30pm (PST) Mon-Fri. Also online at: www.DragParts.com. Most orders are processed and shipped within 24 hours. UPS is the method of shipping unless otherwise specified. Domestic UPS Ground is approximately 1-4 business days, depending on your location. Faster service is available (See Pg 2).

Payment Policy

Orders can be prepaid by Mastercard, Visa, Discover credit/debit cards. Cancelled orders can be subject up to a 15% cancellation fee.

Freight & Shipping

All shipments are shipped freight prepaid unless other arrangements are made. All shipments are fully insured. If your shipment is damaged, save all packaging material and contact the freight carrier immediately.

Returns

A copy of the original invoice must accompany all returns within 30 days of the original purchase date. No reasonable return will be refused, however we reserve the right to apply up to a 15% restocking fee.

Shortages or Discrepancies

All shortages or discrepancies must be reported within 10 days from receipt of shipment. Please include invoice number and date of receipt.

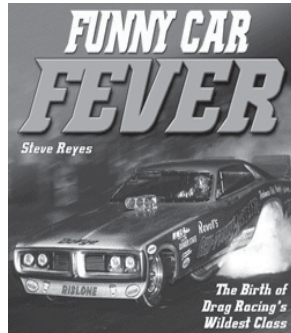

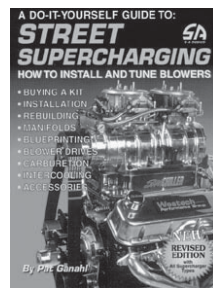

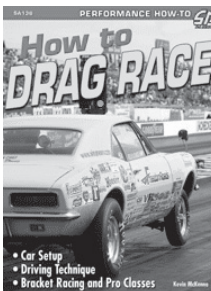

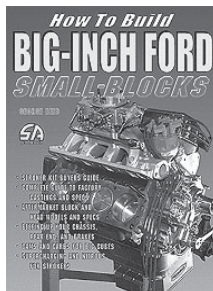

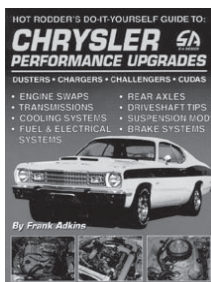

Warranty

Most products carry the manufactures warranty. Good Vibrations Motorsports will not be held liable for any loss, damage, injury or casualty arising from the use of products supplied by Good Vibrations. Not for sale or use on pollution controlled vehicles

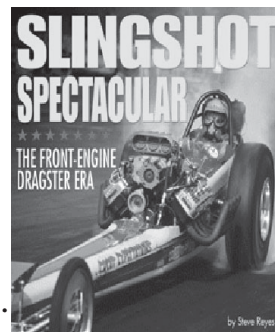

Prices & Specifications

All prices are subject to state sales taxes where applicable. All prices are subject to change without notice.
