**Telephone Orders**

Open between 6am - 5pm (PST) Mon-Fri. Also online at: GoodVibrationsRacing.com. Most orders are processed and shipped within 24 hours. UPS & USPS are the methods of shipping unless otherwise specified. Domestic UPS Ground is approximately 1-4 business days, depending on your location. Faster service is available (See previous page).

**Payment Policy & Returns**

Orders can be Paid by Mastercard, Visa, Discover credit/debit cards or Paypal. No reasonable return will be refused though cancelled orders and returns can be subject up to a 15% restock fee. A copy of the original must accompany all returns within 30 days of the original purchase date. A RMA number is required for returns.

**Freight & Shipping**

All shipments are shipped freight prepaid unless other arrangements are made. All shipments are fully insured. If your shipment is damaged, save all packaging material and contact the freight carrier immediately.

**Prices & Specifications**

California Sales are subject to state sales taxes.  
All prices are subject to change without notice.

**Shortages or Discrepancies**

All shortages or discrepancies must be reported within 10 days from receipt of shipment. Please include invoice number and date of receipt.

**Warranty**

THIS MERCHANDISE IS INTENDED FOR OFF-HIGHWAY USE, MAINLY RACING. THE EFFECTIVENESS WARRANTY AND LONGEVITY OF THIS EQUIPMENT ARE RELATED DIRECTLY TO THE MANNER IN WHICH IT IS INSTALLED, USED AND /OR MAINTAINED. WE CANNOT BE RESPONSIBLE FOR THE QUALITY OF INSTALLATION, AND WE ARE NOT RESPONSIBLE FOR DAMAGE OR INJURY, DIRECT OR CONSEQUENTIAL, LOSS OR CASUALTY WHICH MIGHT RESULT FROM CIRCUMSTANCES BEYOND OUR CONTROL.

Some products carry the manufacturers warranty.

*Good Vibrations Motorsports is the Largest Dealer in the World of Enderle Fuel Injection products!!*

All blower injectors are complete with: Barrel Valve, Fuel Lines, Nozzles & Bodies, Check Valve, Distribution Block & Bypass Pills.

## Blown Injection

### Progressive Linkages

Allows better partial throttle by opening just one butterfly first; The other butterflies are then opened progressively.

E-BAUPLA Installed on new hat .... \$ 241  
E-BAUPL1 Retrofit existing hat ..... \$ 359

E-1001 Bugcatcher Gas \$ 1397  
E-1002 Bugcatcher Alky \$ 1297  
E-1003 Birdcatcher Gas \$ 1597  
E-1004 Birdcatcher Alky \$ 1497

**Injector Assemblies are set up FREE per customer application !**

### 3-Rib Nostalgia Bugcatcher *It's Back!*

This cool injector is nearly identical to the original Bugcatcher of days gone by. Has the three ribs on the top rear. Ideal for that nostalgia look.

E-4005F Partial Hat .... \$ 699  
E-1002F Complete Assy \$1325

### Injector Hat - Partial

**Includes:**  
Polished Hat, Shaft, Stops, Double Arms and Butterflies.

E-4005 Bug \$ 653 E-4006 Bird \$ 866

### Injector Hat Filter Assembly

*Sand Drags \* Mud Bogs  
Tractor Pullers*

*Keeps rocks and debris out of your engine & blower*

Sizes: 5, 7 & 10"

**Kit includes:**

- Outerware
- **Billet** Aluminum Housing
- SS Quick Disconnect Pins
- Mounting Hardware
- Reusable Filter element

Bugcatcher \$ 375  
Birdcatcher \$ 349  
Filter Only \$ 79  
Cleaner -Oil \$ 13  
SS QR Pin \$ 19

Big & Ugly \$ 395  
Filter Only \$ 93

**Outerware Colors:**

**\$ 119**

**Injector Hose \$19**

T-2006 AN6 T-2008 AN8

## 12V Electronic Fuel Lean-Outs

- \* More Top End MPH
- \* Accepts Enderle Pills
- \* Converter Helper
- \* Low Draw

As a high-speed lean out, this valve can be activated with an RPM activated switch, timer or momentary switch. Fuel will be taken away at the top end for best horsepower. What's a "Converter helper"? When a fuel injected motor is on a rev-limiter, the motor cools down severely since a large quantity of fuel is not being burned. This valve can be wired to the transbrake circuit so that when the transbrake is set, the valve opens and keeps the motor hot, lean and mean while on the rev-limiter.

FI-5101 Leanout FI-5103 Enrichment **\$239**

## Hi-Speed Assembly

Bleeds off fuel at higher rpm. Frees up top-end horsepower. Install anywhere between pump and distribution block. Variety of Pressures Available. Accepts Enderle Bypass Pill.

**\$74**

E-7019 Unblown AN6 Tee E-7018 Blown AN8 Tee

## Billet Case Blowers!

More Sizes,  
Prices & Info!

## Show Quality Blowers: 6.71 to 14.71

The Blower Shop superchargers are some of the finest on the market. Their **BILLET** case is superior to cast casings and has a show polished finish.

**HA** = Anodized Rotors/ Case  
**Race** = HA & 18 strips of teflon and case drilled for rear nozzles.

Proven successful in professional motorsports including: Drags, Marine and Tractor Pulling.

### Billet Case - Cast Rotors

- 6.71 Hard Anodize \$ 2599
- 6.71 Full Race \$ 3699
- 8.71 Hard Anodize \$ 3199
- 8.71 Full Race \$ 3399

### Billet Case - Billet Rotors

- 6.71 Full Race \$ 3699
- 8.71 Full Race \$ 3899
- 10.71 Full Race \$ 4399
- 14.71 Full Race \$ 4499
- 14.71 Race Hi-Helix \$ 5499

## Blower & Drive Kits

Street Rods \* Marine \* Drag Racing  
Tractor Pulling \* Mud Buggers

Our Blower Kits are some of the finest on the market. Show-Quality & Precision Machined.

Most kits include: Blower, Drive Kit, Manifold, Bolts, All Gaskets & Tech Support.

Drive Kits in Stock From \$998

Wild Thang

## Premium Burst Panels

Standard size panels are **SFI** Approved. Very popular on Top Fuel & Blown Alcohol Engines.

### 2pc Aluminum Frame Kit

Designed to mount a burst panel onto a blower manifold. Includes 24 Stainless-Steel bolts.

### PSI Blower Tandem Kit

Similar as above but also includes special aluminum center with side brass fitting for quick check of inner panel. Has 2 burst panels.

### Burst Deflector

Billet aluminum deflector diverts potential explosions either up or down away from fuel lines and other fragile components. Has depth gauge provision for measuring panel expansion.

## Burst Panel Adapters

Aluminum adapters can be either welded or bolted on a blower intake. Ideal for applications where there is not enough surface for the standard 2 pc frame kit. Accepts the standard size burst panel.

**B-5100** Burst Panel, SFI Approved ..... **\$ 24.95**

**B-5100.3** Burst Panel **3 pack special!** **\$ 65.99**

## Crank Hub & Gear Remover

T-1112

**\$157**

This tool allows one to safely remove the blower crank hub or harmonic balancer. Unlike some lightweight models, the remover is heat-treated and built tough. It also has a provision for removing the crank gear. Proven many times over by Top Fuel teams.

Crank Hubs

## Crank Triggers

100% coverage foil-shield, twisted pair cable for max noise rejection. Covered with fire-sleeve. The coil is precision wound on a nylon bobbin for long life. Employs a separate 16" ground wire for shielding and max radio frequency and electromagnetic noise rejection. *Can be trimmed to fit* and grounded to the chassis or motor. Highest quality *gold-plated terminals* in the plug ensures that the connection stays corrosion free. Pickup sensors have a smooth diameter and fit perfectly in most 3/8" pickup holders.

*Adapter* allows one to adapt 3/4"-16 style pickup brackets to the smooth 3/8" pickups (usually used with straight pickups).

*Online Parts  
& Technical*

Need more bearing info?

## KING RACING

### High Performance Bearings

Proven effective on circle track engines running at 8000rpm, on Top Fuel Blown Engines producing 5500HP as well as on high performance street vehicles. Alecular material offers an extremely high temperature threshold and high load capacity.

### Why Use King Bearings?

- \* Improved consistency of bearing-to-journal clearance, so you never have to worry about King bearings having the right fit within a set.
- \* Superior eccentricity and crush relief values for a better oil "wedge" and less journal wear.
- \* Decreased taper across the bearing face, yielding superior wall stability, a more parallel wall and better oil film development.
- \* No need to grind cranks "fat" or "thin" to compensate for bearing wall variations.

## Total Seal Gapless Piston Rings

*Keeps Leakdown to 2% or Less!*

As a normal ring wears, the gap opens up allowing combustion gasses to escape. The Total Seal Gapless ring has no gap. Instead, its patented design incorporates a 2-part interlocking ring to close the gap and provide a more perfect seal between the piston and cylinder.

### WHY Total Seal Piston Rings?

*Improved Consistency  
Cleaner Engine Oil  
Better Oil Control  
Less Friction  
Wilder Torque Curve  
More Engine Vacuum  
Less Blowby  
Longer Engine Life*

*Increased Horsepower and Torque  
Lower Engine Oil Temperatures  
Saves Money (Fewer Teardowns)*

*Not sure if Total Seal gapless rings are right for you? Compare the facts and then decide.*

### How to Measure Glove Size

Video

Lay hand flat with fingers and thumb together. Measure circumference at widest point.

- 9" = Sml
- 10" = Med
- 11" = Lrg
- 12" = XL

View Racing  
Helmets Online

## 800/576-7661

## Race Helmets

Helmets are built to meet and exceed **Snell 2010 SA** rating has a fire-resistant liner.

### Full Face

Sizes: XS-XXL

SA2010 ..... **\$ 344**

### Open Face

Sizes: XS-XXL

SA2010 ..... **\$ 284**

**Note:** Blown Alcohol & Nitro applications usually requires a Snell "SA" rating.

### How to Measure Helmet Size

Video

#### Hat Size Circumference

XS	6 1/2" ....	21 5/8"
S	7" .....	22"
S	7 1/8" .....	22 3/8"
M	7 1/4" ....	22 3/4"
M	7 3/8" ....	23 1/8"
L	7 1/2" ....	23 1/2"
XL	7 5/8" ...	24"
XXL	8" .....	25"

To properly determine head circumference, run a soft tape measure around your head (approximately one inch above your eyebrows and just over the ears).

## Equipment Bags

Made from a high quality rip-stop nylon. Internal padding. 3 pockets.

### Helmet Bag

DJ-036010 **\$29.99**

*You just found those Hard-To-Find Tools !!*

### Cam Degree Installation

Makes degreeing a cam a lot quicker and easier. This fixture attached to the block over cylinder #1 using two of the block studs (or bolts). An adjustable stop is included for helping determining top-dead center. Simply install a dial indicator into either the intake or exhaust hole of the fixture.

- T-1115 SBC
- T-1116 BBC **\$167.99**
- T-1117 HEMI

### Valve Lash Adjuster

Quickly and accurately adjust your valves with this custom tool. Machined from stainless steel for durability with choice of 7/16, 1/2 or 9/16 hex. Fits SBC, BB, Mopar & most Fords. **3/16 hardened Tip.**

**\$59.99**

Stainless Steel

- T-1125 7/16 Hex. T-1126 1/2 Hex. T-1128 9/16 Hex.

### Main Cap Puller

The bottom-end guy sure appreciates this main cap slide puller. The 5/16 heat-treated threads are easily threaded into the main cap using the slip-proof knurled knob. A simple tug of the tool allows the cap & lower bearing to drop safely into your hand. A great asset for between round thrashes. Also great to have one at the shop.

- T-1103 2.5 Lbs **\$68.99**
- T-1100 4.5 lbs **\$98.99**

### Wrist Pin Checker

A piston pin failure is catastrophic. Period. And checking their roundness was always a challenge. Now there is a cool tool that allows you to check the pin's roundness to less than .001 thousands in less 5 seconds. And that all adds up to NO kaboom.

T-1132 **\$135.99**

### Push Rod Straightness Checker

**\$139.99**

Valve train failure is normally catastrophic and a bent push rod can be attributed as a culprit in many instances. A pushrod out-of-round as little as .010 will begin to flex. I'm sure you have seen the wear marks on the sides of your pushrods and wonder how they got there. With the Pushrod Checker, simply insert the pushrod into the spring loaded end, rotate 360 degrees and quickly check the roundness of a pushrod to less than .001.

- T-1120 BBC
- T-1121 Fathead
- T-1122 Hemi Fuel

### Rod Bolt Stretch Checker

One simply inserts the rod bolt into the Bolt Stretch Checker and records the reading on the gauge. Bolts that are stretched more than .007 are usually discarded. A complete set of 16 bolts can be checked in less than 60 seconds. Might just be the best minute you invested in your engine assembly.

T-1158 **\$85.99**

### Rod-Piston Pusher

Here is a tool that allows one to safely and quickly install or remove the rod-piston combo out of the block. The pointed end of The Pusher is simply inserted into one of the two threaded holes in the connecting rod. The bend in the shaft allows easy navigation around the crankshaft journal. The diver with hot oil dripping onto his face will thank you profusely.

Billet Aluminum

T-1131 **\$43.99**

### Hemi Top Dead Center Checker

Wanna' check your top dead center like a pro? Then grab one of these. Simply thread the checker into Cylinder #1 of your Hemi and rotate the crank until the dial indicator maxes out. A real time saver when trying to dial in a magneto or camshaft at the track.

T-1134

**\$159.99**

### Billet Primer Bottle Top \$29.99

Machined from billet alum and precisely drilled to allow correct flow of fluid during priming of a blown alcohol or nitro engine. Fits most plastic bottles. Used by the Pros.

T-1005

### Aluminum Wrench Sets

T-1160 Single End AN3-12 ~~\$106~~ \$ 69.99

T-1180 Double End AN3-20 ~~\$185~~ \$116.99

### Adjustable AN Wrench

Protect the anodize on your AN Hose Ends. Knurl Thumbscrew. Minimizes chance of over-tightening.

Fits AN3-20

T-1152 \$43.99

The newest member of the family is the mini. Great to have in your back pocket when you're on the starting line or if you need to get in tight spaces.

Fits AN3-8

T-1154 \$34.99

### Tire Pressure Gauges

Has Pressure Relief Valve

**Economy  
Model**

T-2204 0-30psi

T-2206 0-60psi

\$15.99

Sizes  
4.187 - 4.500  
\$216.99

### Sleeve Puller

Sleeve puller is designed to quickly remove steel cylinder sleeves out of the engine block. Large loop handle grip protects one's hand from getting pinched by the slip-proof slide hammer. Puck can be replaced. Very popular with top fuel and alcohol teams.

T-1098  
\$68.99

### Sleeve Installer

Sleeve installer is a quick and efficient way to install steel cylinder sleeves into the engine block. One size fits most sleeves. Very durable and rugged. Popular with top fuel and alcohol teams.

### Chevy Oil Pump Primer

T-2030 \$19.99

Engine Oil Pump Primer with sleeve. Inserts into distributor hole to prime the engine with oil prior to initial startup. Fits most V8 GM engines

## 800/576-7661

### Spark Plug T-Wrench

**\$59**

**T-1004**

Spark plug T-handle wrench is machined from billet aluminum for strength and lightweight. Has a steel 13/16 socket with an internal rubber boot for holding spark plugs in place during assembly & removal. Very popular among sportsmen teams.

### Torque Spark Plug T-Wrench

**T-1003**

**\$149**

Save time and head damage. This torque wrench only allows the spark plug to tighten to a pre-determined safe setting. Machined from billet aluminum for strength & lightweight. Very popular among Top Fuel & Alcohol teams. Fits 13/16 plugs.

### “The Plug Gapper”

Quickly, precisely and accurately gap spark plugs. Billet Alum.

**T-1002 \$59**

### Spark Plug Storage Rack

Heavy-Duty, yet lightweight rack is designed to store 8 spark plugs safely and in order. Large flat anodized bottom keep the rack upright and easily cleans up. Can be used stand-alone or bolted to a work bench. Those that assemble the engine top end will truly appreciate this rack regardless if they're at the shop or in the pits.

**T-1136 Holds 8 \$40**

**T-1138 Holds 16 \$46**

### Valve Cover SS Speed Wrench

**New!**

**T-1006**

**\$59**

T-Handle valve cover Speed wrench is machined from polished stainless steel with a steel 7/16 socket. Conveniently helps to tighten or loosen valve cover nuts. Ideal for the racer looking to save time between rounds.

### Lower Crank Gear Installer

**T-1113 \$48**

This tool allows one to safely install the crank gear onto the crankshaft. Has a knurl grip to prevent slippage and is heat-treated for durability. Will fit BBC, Hemi and other similar cranks.

### Dampner Installation Kit

**T-1110 \$89**

Dampner kit for installation and removal of harmonic balancers and crank hubs. High quality kit fits most domestic applications. Comes complete in a hard shell case.

### Crank Hub & Gear Remover

**T-1112 \$157**

This tool allows one to safely remove the blower crank hub or harmonic balancer. Unlike some lightweight models, the remover is heat-treated and built tough. It also has a provision for removing the crank gear. Proven many times over by Top Fuel teams.

### Mag Timing Adjustment Wrench

**MSD Magnetos**

**T-1015 \$155**

Owners of MSD magnetos really appreciate this unique tool. The billet aluminum band remains clamped to the mag. The removable handle wrench allows for accurate adjustments of the mag while the engine is running. Very popular with Top Alcohol teams.

### Magneto Drive Remover

**T-1017 \$24**

Designed to very quickly and safely remove the drive from a Mallory or MSD Magneto/ Distributor. It simply slips over and holds the 4-Pin or Hex Cross Drive so that one can remove the inner nut. No need to remove the magneto cap and hold the rotor. Ditto for installing the drive.

## Hose Fitting Assembly

Online  
Assembly

1. Wrap hose tightly with tape at cutting point. Using a fine tooth hacksaw, cable cutters or radiac wheel, cut the hose in the middle of the tape. Remove tape after cutting being careful not to fray the braid.

2. Slip hose into socket to the depth indicated by the hose insertion mark on the outside of the socket. This should be just short of the back of the threads. **VERY IMPORTANT** - Mark hose with tape or suitable marking device at rear of socket. This mark will later indicate to you if the hose has pushed out of the socket during assembly.

3. Using an anti-seize lubricant, liberally lubricate inside of hose and threads on the nipple. Holding nipple horizontally in a vise equipped with soft aluminum jaws, push socket end carefully with hose nipple with a turning motion and engage nipple threads into those of the socket. Continue tightening by hand as far as possible to make sure that the threads are properly mated and no cross threading has occurred.

4. Using an aluminum fitting wrench, finish tightening assembly. When properly assembled a small gap of .030" or less should exist between the socket and shoulder of nipple. **NOTE:** Check marks on hose in step 2 for any evidence of push out. Hose assembly must be cleaned and tested to twice the operating pressure.

## No more Bloody Fingers!

Assemble Braided Stainless Steel hose without poking your fingers. Ideal for racers and performance enthusiasts who have experienced the painful challenge of installing the AN socket.

How-To Demo

### Why Use CPE Braided SS Hose ??

Proven & trusted by Top Teams, Stainless Steel braid provides durability and Heat Resistance. Inner liner is composed of Chlorinated Polyethylene (CPE) which provides the great fluid transfer with a temperature range of -40 degrees to +300 degrees F.

## Benefits of Using Copper...

**Conductivity.** Copper is the standard by which all other conductors are measured, therefore a copper gasket provides superior thermal conductivity, acting to stabilize head and block temperatures which makes tuning easier.

**25% Coefficient of Elasticity.** One of the properties of copper is that it stretches before a catastrophic failure, providing an extra measure of safety in case of severe detonation.

**Strength.** Copper (in the form SCE use) has a tensile strength of approximately 32,000 psi, compare this to the 1200 to 1800 psi tensile of most facing materials used on conventional performance head gaskets.

## Copper Head Gaskets

**Premium Quality \* Properly Annealed  
Perfect Fit \* Dead Soft Copper**

**Track Tested & Proven by Top Fuel  
& Alcohol Racers**

SCE-31541 304 Stainless Steel O-Ring Wire 15ft **\$11.99**

**800/576-7661**

Motor oils, transmission fluids and gear oils are flowing lubricants that provide a film barrier between metal surfaces pressing or rubbing together. The greater the film strength, the better the oil. However, in extreme pressure metal-to-metal areas, the film strength of oil is seriously thinned and is often completely squeezed out. On the other hand, **Prolong** is a bonding lubricant. **Prolong AFMT™** interacts with metal surfaces in a molecular and chemical process to create a protective buffer on the surface of the metal. This is not a film or coating over the metal. Molecules in the AFMT™ formula are polarized and actually bond with the metal surface. The layer of AFMT™ molecules is activated by extreme pressure and heat, meaning that **Prolong** lubrication performs best right where it is needed most! The result, AFMT™ significantly reduces harmful friction and heat.

Fortified with Prolong's advanced technology, nothing works better than Prolong Oil Stabilizer to help **solve lubrication-related** problems. Other oil stabilizers on the market do not include the necessary additives provided by today's motor oils, such as antioxidants. The formulation of Prolong Oil Stabilizer includes: Prolong's AFMT™ (Anti-Friction Metal Treatment) advanced technology as well as vital additives to provide a completely formulated oil stabilizer product, which sets this product apart from the other competitors. (32oz)

**Works great in high horsepower, drag racing engines especially those injected or blown.**

**Fuel: Gas, methanol, diesel or nitro fuels.**

### Oil Stabilizer

PSL13032.. **\$9.99**

Prolong Waterless Wash & Shine is a revolutionary new method of washing and shining your car in less than 15 minutes without water. No buckets, no hoses, no rinsing and drying! Simply spray on the surface and wipe dry. With Waterless Wash & Shine you can conveniently and quickly wash your race or show car anywhere, anytime. The unique formulation dissolves dirt and stains such as tree sap and bugs; special lubricating agents encapsulate the dirt so that it can easily be wiped off a car's delicate surface without scratching. Leaves a protective film that provides gloss, color and smoothness that conventional car washes fail to deliver. (17oz)

**Safe & effective on race and show cars.**

### Wash & Shine

PSL64017.. **\$6.99**

**Product Overview:** Reduces electrolysis, extreme pressure friction and excessive heat. **Displaces** moisture and protects metal surfaces. Helps **prevent** corrosion and oxidation. Formulated with unique, AFMT™ advanced technology formula. **How to use:** Add 10% to total volume of oil for gas, methanol, nitro or diesel fueled motors, engines or gear boxes. Add 5% to total volume for hydraulic systems and automatic transmissions. (32oz)

**Race proven in most motorsports including:**

**NASCAR, NHRA, Marine & Tractor Pulling**

### AFMT

PSL10010 **\$35.95**

Super Penetrating Lubricant Spray is formulated with AFMT™ (Anti-Friction Metal Treatment) advanced technology to **lubricate**, **penetrate**, and **prevent** corrosion, free sticky mechanisms, **displace** moisture, stop squeaks, and reduce friction and wear on all metal surfaces. **Easy-to-apply** protection and lubrication for hundreds of performance & recreational uses as well as commercial and industrial applications such as light duty machining, tapping and drilling fluid. (16oz)

**Ideal for: Enderle & Hilborn fuel pumps, barrel valves & shutoffs.**

### Lubricant

4 oz PSL40004 **\$4.99**

- LOP-10094 50W Oil 2.5 Gal \$ 73.99
- LOP-10265 70W Oil 2.5 Gal \$ 79.99

#### Synthetic Engine Oil

- LOP-10615 20W-50 Oil 1 Qt \$ 13.99
- LOP-10616 20W-50 Oil 5 Qt \$ 56.99

#### Hot Rod & Classic Engine Oil

- LOP-10683 10W-40 Oil 5Qt \$ 35.99

Because many of these very special machines often spend long periods off the roads, special additives are formulated into the oil. Similar to Lucas' Marine oils that provide rust and corrosion protection

#### Lower cylinder head temps. Super Coolant

Allow advanced timing and more horsepower. Reduce operating temperatures by up to 20°. Prevents corrosion and deposits that cause leaks, overheating, and cooling system failures.

- LOP-10640 Super Coolant 16oz .. \$ 12.99

#### Transmission Sure Shift

Smooth, precise shifting \* Extraordinary protection

This is no normal ATF formulation. It has been developed to give the smooth, precise shifts needed by racers and yet extends a degree of protection not found in any other ATF. This product will stop wear and tear like nothing you've ever tried. LOP-10052 Sure Shift 1 Qt... \$ 7.99

### SAFEGUARD™ ETHANOL Fuel Conditioner With Stabilizers

Lucas Safeguard™ was developed to specifically address issues associated with using ethanol based fuels. This applies to E-10, E-15, E-85, pure ethanol and any mixtures in between including gasoline. Safeguard™ is completely soluble in all ethanol fuels and will not harm filters. Contains effective additives to prevent rust and corrosion associated with the use of ethanol fuels.

Treats 80 Gallons

- LOP-10670 Ethanol/ Alky Conditioner 5.2oz \$ 6.99

### Synthetic Gear Oil

SAE 75W-90 Synthetic Gear Oil is a non-foaming, super slick, long lasting lubricant designed especially for high performance applications where other gear lubricants just aren't good enough. Contains a special additive that cushions gears and resists "squeezing out" under extreme pressure situation. Specially designed to stand up to high temperatures without losing its lubricity.

- LOP-10043 80W-90 1 Qt Non-Syn \$ 8.99

- LOP-10047 75W-90 1 Qt Synthetic \$ 14.99

### Extreme Pressure Valve Train Synthetic Grease

Greatly reduces friction on moving parts to prevent galling. Excellent adhesion quality. Excellent on all surfaces requiring an extreme pressure lubricant. Perfect for assembly lube on rod bolts. Protects pushrod ends on initial start up. Essential for roller lifters, rockers, pushrods and camshafts.

- LOP-10578 4 oz Can ..... \$ 32.99

- LOP-10563 1.5 oz Tube ..... \$ 9.99

### Semi-Synthetic Assembly Lube

Lucas High Performance Assembly Lube is designed for mechanics and technicians to pre lube bearings, cams, lifters and valve train. The Semi-Synthetic formula that contains ZINC, MOLY and other high pressure additives which offer maximum protection during engine break-in. Super slick and easy to use, Lucas High Performance Assembly Lube will eliminate dry starts and prevent seizing galling and scuffing.

- LOP-10153 Assembly Lube 8oz \$ 7.99
